Introductions.

Agenda:

Legislation.

We restated our goals with regards to amending and repealing laws which are archaic and discussed advocates in Baton Rouge, LA, who may have better access to legislative contacts.

Additionally, we wished to discover laws pertaining to lobbyists and if they can help us. The Sierra Club may be useful here as well. (note. Daryl Wiley was named as S.Club contact) The Master Plan should be included in our suggested amendments to the current laws.

Wisner Bicycle Lanes.

The plan does exist and changes are being adopted to make paths into lanes especially at major intersections.

Discussion.

We want to create a 'design and review' process for new and modified bicycle infrastructure which can provide creative comments and advice to authorities and recommend future enhancements. This design sub-committee would be assembled on an as needed basis to deal with resistance to our goals.

Safety Kits.

The give-away continues with Donald setting up a table on Tulane Ave. at Jeff Davis Pkwy. We discussed other give-away points to find a spectrum of cyclists and gather simple information.

Incorporation.

Marco has filed our articles of incorporation.

Next Meeting: Fairgrinds Coffee House, 5:45 p.m.
